BOSE®

Better sound through research®

Exclusively by

ATLAS®

inspiring sound & vision

About Atlas Sound & Vision.

Atlas Sound & Vision is a unique Singapore success story. Originally known as Atlas Hi-Fi, the business of sound was started by Mr. A.B. Tien & Mrs. Jeannie Tien in a small shop in Market Street in 1963. Over the past 50 years, ATLAS® has built a strong reputation for providing the best audiovisual solutions for all its customers.

With the passing of Mr. A.B. Tien in August 2003, his son Michael Tien took over the helm of the business. Michael expanded the focus of the company and rebranded the company to Atlas Sound & Vision. ATLAS® presents premium offerings such as Bose®, Loewe, ad notam & Accuphase to Singapore, Malaysia & Brunei. Be it for the home or business space, ATLAS® helps customers maximize their investment with personalized solutions.

About ATLAS® Experience.

ATLAS® Experience is the customer service brand of Atlas Sound & Vision. It is all about the passion and level of customer engagement. "We do not see ourselves as a company focused on selling audiovisual products to customers. Instead, we see ourselves as a customer-focused company providing audio visual solutions," said Michael Tien.

The ATLAS® Experience is delivered through all levels of engagement within the company, but is particularly evident in its retail outlets. Unlike other home entertainment retail outlets, ATLAS® showrooms, gives customers that truly personal service, customized to their needs and configured for the best results in their homes.

About Sovis Pte Ltd (a subsidiary of Atlas Sound & Vision Pte Ltd)

SOVIS Professional specializes in commercial projects and professional sound, bringing you premium equipment and an unprecedented level of technology and service in audio consulting. The SOVIS Professional Team is highly trained, with each member being a specialist in the profession of sound, control system and visual systems.

SOVIS Professional offers high performance audio visual solution where quality sound is important, from the hospitality industry, to places of worship, institutions, restaurants, places of interest, corporations and even retail chains.

Currently, St. Regis Hotel Singapore, Orchard Turn Residences, Raffles Hotel, Banyan Tree Resort, Jurong Bird Park, National University of Singapore, Starbucks, Economic Development Board of Singapore, and many others are enjoying Bose® Sound from our solutions.

ATLAS® is the proud recipient of:

- Premium GEMS 2008, 2009, 2010, 2011, 2012
- Enterprise 50 Award 2009
- SPBA– Established Brand 2007, 2008, 2009
- SME 500 2008, 2009
- Singapore Service Star

About Bose® Corporation.

Bose® Corporation was founded in 1964 by Dr. Amar G. Bose. Under his leadership as chairman and technical director, 100 per cent of profits are reinvested in the company's growth and development. The company today is one of the largest and best-known audio technology developers and product manufacturers in the United States and throughout the world.

Company Philosophy.

Bose® Corporation's exceptionally strong commitment to research fuels the company's fundamental goal: to develop breakthrough products and technologies that improve people's lives. Bose® applies the highest level of scientific inquiry and invention to the discovery of new concepts and the development of new products. It is in this spirit of innovation and passion that the company strives to create unique experiences that enlighten and delight its customers.

The Bose® approach to designing speakers and music systems is based on the belief that audio products exist to provide music for everyone, everywhere, and that music – not equipment – is the ultimate benefit.

Today, you can hear Bose® wherever quality sound is important. From the Olympic Games to the Sistine Chapel, at home or on the road, from large arenas to intimate settings, you can hear the realism of the most respected name in sound.

Proprietary technologies that set Bose® Lifestyle® Systems apart.

It connects. Unify™ - Intelligent Integration System.

Uses on-screen navigation to simplify system setup and everyday use. This proprietary technology walks you through setup, showing the right inputs and best connection options, and even verifies you've done it correctly. Clear, on-screen menus provide all the information you need for your connected sources.

It listens. AdaptiQ® – Audio Calibration System.

There are hundreds of things in your room that affect sound. With poor room acoustics or less than ideal speaker placement, even a great system can sound like one worth half the price.

And it's not like Bose® to let sound be compromised. That is why our Lifestyle® systems feature our proprietary ADAPTiQ® audio calibration system. It listens to your room. Learns what your room sounds like and where your speakers are placed. Then it adapts the sound to overcome most of the acoustical challenges to perform at its best for your room. Our Lifestyle® 18 SIII, 35 SIV, 48 SIV, V35, V25 and Videowave™ systems incorporate Bose® Direct/Reflecting® speaker technology, which uses your walls create spacious sound.

It learns. Flexmount™ – Automatic placement compensation.

Flexmount™ automatic placement compensation automatically detects the speaker's orientation – flat on a table, or mounted on a wall – and adjusts the sound to ensure wide, spacious sound.

It adapts. Bose® link – Music Throughout Your Home.

Now you can experience Bose® performance, elegance and simplicity, wherever sound is important. Lifestyle® systems and Bose® link-compatible products work together seamlessly to expand the way you listen - indoors and outdoors wherever you are.

Bose® link extends the performance of your Lifestyle® system to up to 14 additional listening areas around your home - even outdoors. It becomes the centre of a whole-home audio solution, each element engineered to work in harmony with the others. Simply connect Bose® link-compatible products and your family can enjoy different audio streams in different rooms - from the same Lifestyle® system, at the same time.

With a Bose® link-compatible expansion package, product or system and a Lifestyle® expansion remote control, you will be able to enjoy the advantages of your Lifestyle® system wherever you choose. Instantly access your entire music collection, for instance. Or enjoy personalized music selections, with our uMusic® intelligent playback system. Only Bose® technology delivers this unmatched blend of performance, elegance, simplicity and expandability. Extend your Lifestyle® system with Bose® link and enjoy a whole-home entertainment experience unlike any other.

Home theater sound + High-definition picture.
Experience it for yourself.

Discover what no other television can deliver, with the Bose® VideoWave® II entertainment system. It's the only HD display with a complete Bose® home theater sound system built inside. Available with a 46-inch or 55-inch screen.

- Enjoy a deep, engaging entertainment experience from a 1080p LED backlit display, with no speakers, subwoofer or wires in sight.
- Combines both picture and home theater sound, making it easier to enjoy the rich experience available from HD content without the clutter or complexity of a conventional home theater system connected to a TV.
- Control the system and connected sources with a touch, glide and click – the Bose® click pad remote has just a few buttons for the functions you use most, and works together with a unique onscreen display that keeps your focus on the screen.
- Delivers the deep lows of a home theater system without the need for a separate subwoofer – the unprecedented performance made possible by waveguide speaker technology.
- Wide, spacious sound well beyond the screen, delivered by exclusive PhaseGuide™ technology, combined with a unique seven-element speaker array and advanced digital signal processing.
- Customizes its sound during setup to the room – made possible by proprietary ADAPTiQ® audio calibration system.
- Lets you easily connect and control additional sources, such as a Blu-ray Disc™ player. Exclusive Unify® technology guides you through the process step by step.
- An LED backlit display available in two screen sizes: 46-inch and 55-inch.
- Enhanced industrial design brings a higher level of elegance to the system.

Premium 5.1 surround sound. For movies, sports, video games and music.

The Bose® Lifestyle® V35 home entertainment system delivers vivid, theater-like sound that brings movies, sports, video games and music to life. And it's designed to let you enjoy that experience more easily than ever before.

- Delivers vivid, theater-like surround sound for movies, sports, video games and music.
- Simplifies setup and use, with the exclusive Unify™ intelligent integration system.
- Lets you easily connect and control up to 6 HD video and music sources – such as your Blu-ray Disc™ player, cable box and gaming system – plus your iPod or iPhone.
- Universal remote control and navigation menus make your entire system so easy to use, you may not even need the instructions.
- iPod/iPhone-compatible dock and built-in AM/FM radio expand your music-listening experience.
- Proprietary ADAPTiQ® audio calibration system analyzes and adjusts the system's sound to the size and shape of your room, allowing greater freedom of speaker placement and ensuring a consistent, high-quality performance.
- Award-winning Jewel Cube® speaker arrays deliver exhilarating surround sound, and blend elegantly with your décor.
- Hideaway Acoustimass® module adds the deep, emotional intensity you feel at the theater – yet can be hidden out of sight behind a couch or curtain.
- Automatic video upscaling delivers the highest resolution your TV can accept, including 1080p over HDMI.

Hear wide, spacious sound. See one slim speaker.
Lifestyle® 135 home entertainment system.

An exclusive Bose® innovation lets you experience wide, spacious sound from just one visible speaker. A wireless, hideaway Acoustimass® module provides deep, rich bass and can be easily hidden in the room. And Unify® technology lets you easily connect and control attached entertainment sources.

- Wide, spacious home theater sound – made possible by an exclusive Bose® innovation.
- Consists of a single, visible speaker and a hideaway, wireless Acoustimass® module, making it easy to set up and enjoy right away.
- Easily connects to and controls additional sources, such as a Blu-ray Disc™ player, with exclusive Bose Unify® technology.
- Customizes its sound to the size and shape of the room it's in – made possible by the proprietary ADAPTiQ® audio calibration system.
- The elegant speaker array visually complements a flat-screen television – whether wall-mounted or placed on a table.
- Flexmount™ automatic placement compensation automatically detects the speaker's orientation – flat on a table, or mounted on a wall – and adjusts the sound to ensure wide, spacious sound.
- A wireless link to the Acoustimass® module helps to ensure an uncluttered appearance in the room.
- Dock for iPod/iPhone and built-in AM/FM tuner provide greater options for enjoying music.
- Works with other Bose® speakers and systems to deliver sound throughout the home with Bose® link technology.

Bose® link Expansion Remote Controls

Personal® Music Center III

Our most advanced expansion remote gives you access and control of your Lifestyle® V35, V25, 235 or 135 home entertainment system from additional locations around your home – even outdoors. It also controls connected components, such as your Blu-ray player, DVR and more. Plus, you'll have access to your iPod playlists, showing title, track, artist and genre of any song from your music collection.

Compatible products : Lifestyle® V35, V25, 235 and 135 systems

Personal® Music Center II

Provides complete, interactive control of your Lifestyle® 48 media center, plus most commonly attached components: TV, VCR, cable box, satellite receiver, PVR and more. Also accesses digitally stored CDs in uMusic® system. Slim and elegant design, with a backlit LCD screen.

Compatible products : Lifestyle® 48, 35 and 18 DVD systems

RC-35S2 Expansion Remote

Gives you access and control of your Lifestyle® V35, V25 or 235 home entertainment system from additional locations around your home – even outdoors. Controls any device connected to your Lifestyle® V35 or V25 system. Use with Bose® link – compatible products to expand sound from your Lifestyle® system to another room or outdoors. Includes "Party" feature, which links all connected expansion products to the source playing on your Lifestyle® system. Ideal when the same music is desired in multiple rooms. Works through most walls, floors and ceilings.

Compatible products : Lifestyle® V35, V25 and 235 systems

Bose® Expansion Accessories.

Bose® link AL8 Homewide Wireless Audio Link

The Bose® link AL8 homewide wireless audio link is the easiest way to expand your Lifestyle® system to additional rooms. This transmitter and receiver package delivers two independent audio streams from your system to Bose® link-enabled products in another room. All without running room-to-room wires. Wherever you listen, you will have the benefits of the Lifestyle® system with you.

Dimensions	: 7.62 H x 15.24 W x 15.24 D cm
Weight in carton	: 4.8 kg
Colour	: Black

Bose® link AR1 Wireless Audio Receiver

The Bose® link AR1 wireless audio receiver works with the AL8 wireless transmitter connected to your Lifestyle® DVD system. If you have already expanded your system benefits to a second room with the AL8 homewide wireless audio link–consisting of a transmitter and receiver—this individual AR1 receiver will establish sound in yet another listening area.

Dimensions	: 7.62 H x 15.24 W x 15.24 D cm
Weight in carton	: 2.04 kg
Colour	: Black

Lifestyle® VS-2 Video Enhancer

VS-2 video enhancer simplifies the integration of a Lifestyle® system with other video sources, including those with HDMI. Connect just one wire from the VS-2 video enhancer to the back of your TV, and receive the correct audio and video with the press of one button.

Dimensions	: 4.06 H x 39.62 W x 12.19 D cm
Weight	: 1.3 kg
Colour	: Black

Lifestyle® Homewide Powered Speaker System.

Bring the premium sound of your Lifestyle® home theater system to a second room. The Lifestyle® Homewide powered speaker system is specifically designed as an aesthetic and acoustic match to the Lifestyle® 48 system with Jewel Cube® speakers and uMusic® technology, but is compatible with all Lifestyle® systems.

Jewel Cube® Speakers	: 11.2 H x 5.6 W x 8.1 D cm, 5 kg

TV Speakers

Bose® Solo TV
Sound System

Now you can enjoy dramatically better TV sound, all from a one-piece solution. The Bose® Solo sound system fits neatly under your TV and reveals more of the dialogue, sound effects and music you've been missing. Bose® technology brings out the details you've meant to hear, clearly and naturally, at any volume. Once listen, and you'll realize there's more to experience in your TV shows than you ever imagined.

Dimension	: 7.6 H x 52.7 W x 31.1 D cm, 4.6 kg

Hear wide, spacious sound. See one slim speaker.
The Bose® CineMate® 1 SR digital home theater speaker system.

CineMate® GS Series II

Digital Home Theater Speaker System

Presenting the CineMate® GS Series II digital home theater speaker system with improved acoustic performance. It's the easiest way to enjoy Bose® home theatre performance and bring out the full audio potential of yourHDTV. Bose® proprietary TrueSpace® surround digital processing circuitry allows two premium Gemstone® speaker arrays and an Acoustimass® module to deliver sound that seems to surround you.

Speakers Arrays	: 6.4 H x 14.1 W x 10.5 D cm, 0.4 kg	Interface module	: 2.9 H x 8.5 W x 6.1 D cm, 0.4 kg

Weight in carton	: 14.32 kg		

CineMate® 1 SR

Digital Home Theater Speaker System

What you see is one slim speaker. What you hear is sound that fills the room. It's all made possible by a Bose® innovation that delivers wide, spacious sound – from one visible speaker that fits neatly beneath your TV and a wireless, hideaway Acoustimass® module. Hear the CineMate® 1 SR system for yourself and discover how Bose® can change the way you think about home theater.

Soundbar speaker	: 12.4 H x 93.5 W x 6.1 D cm, 6.1 kg	Colour	: Graphite Grey with matching module
Acoustimass® module	: 28.2 H x 19.3 W x 37.3 D cm, 6.3 kg		
Weight in carton	: 16 kg		

A new standard of performance and simplicity.
Enjoy lush, room-filling sound from a smaller, compact Wave® music system.

Acoustic Wave® Series II
Music System

As the best all-in-one music system made by Bose®, the new Acoustic Wave® music system II can fill even large rooms and outdoor spaces with lifelike sound. It is small and easy to use, and yet new Bose® technologies inside deliver audio quality that is even closer to the sound of a live performance. Includes a credit card-style remote control, CD/MP3 CD player, digital tuner with six AM and six FM presets, and a headphone jack. You also can connect your MP3 player or TV. Or, order it with the optional 5-CD Changer and hear your music for hours, uninterrupted.

Acoustic Wave®	:	27 H x 45.7 W x 18/7 D cm, 6.5 kg
Weight in carton	:	8.1 kg
Colour options	:	Available in Platinum White or Graphite Grey
*Optional	:	5-CD changer Wave® Connect Kit (compatible with all iPod models featuring click wheel control, iPod not included)

*Image with optional accessories

Wave® Series III
Music System

Enjoy lifelike, room-filling sound for all your music from a small and versatile system that's now even more convenient to use. The Bose® Wave® music system III features a built-in CD player and FM/AM radio tuner – plus available accessories to let you easily connect your iPod, iPhone, smartphone or Bluetooth® device. An award-winning Bose® exclusive – waveguide speaker technology – delivers high-performance sound. Simply touch the system's top for on and off, or to snooze the alarm.

Wave® Music System	:	10.7 H x 36.8 W x 21.9 D
Weight in carton	:	3.9kg
Colour options	:	Available in Titanium Silver, Graphite Gray and Platinum White
*Optional	:	Bluetooth Music Adaptor / Multi-CD changer / Wave® Connect Kit (compatible with all iPod models featuring click wheel control, iPod not included)

*Image with optional accessories

Wave® Radio Series III
Music System

The sound and features of the Wave® music system III, without the CD player. The original Wave® radio woke up an industry with sound quality unheard of from something so small, and today's Wave® radio III gives you even better performance. Includes a built-in FM/AM tuner. Available accessories that let you easily connect your iPod, iPhone, smartphone or Bluetooth® device.

Wave® Radio	:	10.7 H x 36.8 W x 21.9 D
Weight in carton	:	3.4kg
Colour options	:	Available in Graphite Gray and Platinum White
*Optional	:	Bluetooth music adapter / Wave® Connect kit (compatible with all iPod models featuring click wheel control, iPod not included)

*Image with optional accessories

Our best-performing digital music system.
Insert iPod. Stand back.

Presenting a performance of your iPod or iPhone so powerful, you have to hear it to believe it.

Made for iPod iPhone iPad

Designed with exclusive Bose® waveguide speaker technology, it delivers a generous musical range – from the deep lows of the bass line to the soaring highs of a vocalist. The clarity of performance is one you may never have heard before from a sound system for the iPod or iPhone. In fact, the sound of this elegant, one-piece design even rivals that of a large stereo system.

- Lifelike, powerful performance rivaling that of a larger, more expensive stereo system
- Deeper low notes from a newly designed driver enhanced by Bose® waveguide speaker technology
- Auxiliary input for connecting your music phone, MP3 player or other audio device
- Compatible with most iPhone and iPod models
- Optional Bluetooth® dock for playing your stereo Bluetooth music phone

*Optional

Dimensions	: 22.1 H x 43.2 W x 24.4 D cm
Weight	: 8.4 kg
Colour	: Silver
Optional	: Bluetooth® dock

Performance. Functionality. Convenience.
Hear what your iPod's been missing.

SoundDock® Portable
Digital Music System

Made for iPod iPhone iPad

Give your music the freedom to move. Introducing the SoundDock® Portable digital music system for your iPod. A portable iPod speaker system that delivers a quality audio performance – without compromise. Advanced Bose® technologies and proprietary acoustic design combine to reproduce music with fullness and clarity unmatched by other battery-powered speakers. A rechargeable lithium-ion battery provides more power and longer playtime than most other types of rechargeable batteries, for hours of listening enjoyment. Works with most iPod models. A small remote controls the SoundDock® Portable system and basic iPod functions – including playlist navigation. The new SoundDock® Portable digital music system from Bose®. Where will your music go next?

Live sound to go. Performance that's portable.
The L1® Portable line array system.

Key Benefits of L1 Family of Portable Line Array Systems

- Consistent volume. Bose® technology ensures sound is never too loud in front of the room, or too hard to hear in the back.
- Delivers sound evenly – even off to the sides. Bose® spatial Dispersion™ system technology provides nearly 180° of coverage.
- Light and portable. Interlocking parts make the system easy to setup and transport.
- Easily enjoy professional sound. Use for presentations, performances, parties and more.

T1 ToneMatch® audio engine

A multichannel audio device designed for use with all L1® systems, containing our largest library of ToneMatch® presets, proprietary zEQ, and a complete suite of studio-class effects and processing.

Advanced tone-shaping technology, only from Bose®. Customized ToneMatch® presets instantly optimizes instruments and microphones. Proprietary zEQ takes the guesswork out of fine-tuning your tone. And a complete suite of studio class effects and processing make it easy to dial in your signature sound.

To learn more about L1 system, please visit the Bose® online community, where product experts from Bose® and L1 system users unite to answer your questions: bose.com/livesound

T1 ToneMatch Audio Engine

Bose® L1® portable line array systems use proprietary technology to combine PA and monitors into a single portable solution. L1® systems deliver exceptional tone, even coverage and consistent volume from the front of athe room to the back.

L1 Model II System

The L1® Model II system is our most advanced system for musicians, combining our best sound reproduction with easy transport and setup. It is designed to work with the T1 ToneMatch® audio engine, which offers advanced tone-shaping technology only from Bose®.
